

SAIM AHMAD

SOFTWARE ENGINEER

Address: Lahore, Punjab, Pakistan

Github: [ahmaadsaim](#)

Ph No. : 0328-6516202

LinkedIn: [saimahmadpanosta](#)

PROFILE

I am a visionary and aspiring Software Engineer currently in my 6th semester. I have a strong foundation in technology fundamentals and a passion for coding and designing AI-driven solutions and architectures. My current focus is on Agentic and Generative AI, and my interests are strongly aligned with AI Engineering.

SKILLS

Languages: JavaScript, TypeScript, Python, Java

Frontend Development: React.js, Next.js, Vue.js, HTML, CSS, Tailwind CSS

Backend Development: Node.js, FastAPI, REST APIs

Databases: PostgreSQL, MongoDB, ChromaDB (Vector Database)

AI & Machine Learning: LangChain, RAG (Retrieval-Augmented Generation), Generative AI, Agentic AI

Cloud & Deployment: Vercel, Cloudflare Workers

Tools & Platforms: Git, GitHub, Figma, Apache Kafka

Core Skills: Full-Stack Development, Software Architecture, AI-Driven Solutions, Problem Solving & Debugging

PROJECTS

School Management System

Next.js, TypeScript, PostgreSQL, Prisma, Tailwind CSS

- Built and deployed a full-stack School Management System with admin and faculty portals.
- Developed responsive frontend and backend architecture using Next.js and Prisma.
- Managed database integration, authentication, and deployment on Vercel.

YouTube Video Chat Assistant (Chrome Extension + Web App)

Next.js, LangChain, RAG, Vector DB

- Built a Chrome extension and web app to chat with YouTube videos using extracted video content.
- Implemented a RAG pipeline using LangChain (loaders, splitters, embeddings, vector database) with LLM-based response generation.
- Enabled seamless flow from extension click to web-based interactive chat interface.

EDUCATION

BS Software Engineering

Sep 2023 - Jun 2027

COMSATS UNIVERSITY ISLAMABAD, Lahore Campus

Fsc (Pre-Engineering)

2021-2023

Punjab College Hasilpur

Matriculation

2019-2021

Govt High School No.1, Hasilpur Mandi

CERTIFICATIONS

[Introduction to Model Context Protocol - Anthropic](#)
